React JS, Node JS, MongoDB, Firebase, HTML, CSS, Tailwind, Bootstrap, Postman, Next JS, Express JS

### State Management

Redux, Context API

### SDLC

## Volunteering

### Teranis '23

Sub-Coordinator

### April 2023

Managed a team of 30 volunteers for an inter-college tech fest at LBS College of Engineering, Kasaragod.

## Interests

### Music Production

### Singing

### Movies

## Languages

### English

### Malayalam

### Hindi

## Summary

I am a passionate Frontend Developer with experience in designing and building scalable, interactive web applications. Proficient in React.js, Next.js, JavaScript, API integration, and UI/UX development, I focus on performance optimization and enhancing the user experience. I enjoy learning and staying up to date with modern frontend technologies while building efficient and maintainable applications.

## Experience

### React JS Developer

January 2024 – Present

BRQ Globe Tech Pvt. Ltd

Kasaragod, Kerala

🌐 <https://brqglobtech.com/>

- Developed and maintained scalable React.js applications.
- Optimized UI components for performance and responsiveness.
- Integrated APIs and handled data flow efficiently.
- Debugged and resolved UI issues for cross-browser compatibility.

## Education

### LBS College of Engineering

July 2019 – April 2023

Computer Science and Engineering

B.Tech

## Projects

### Bharath Taxes CA ERP

April 2024 – Present

A multi-service platform to streamline service management.

- Developed and implemented a dynamic UI tailored to client requirements, ensuring an easy and efficient user experience.
- Enhanced front-office usability by implementing seamless keyboard navigation for improved workflow efficiency.
- Tested and integrated APIs into the application, ensuring seamless data flow and optimal performance.
- Identified and resolved UI/UX issues, optimizing performance and enhancing overall user satisfaction.

### Cookify

March 2024

A recipe finder app, allowing users to search recipes by ingredients.

🌐 <https://cookify-sharon.netlify.app/>

- Developed features to display recipe details (ingredients, instructions, nutritional value) and implemented a recipe search and "Add to Favorites" functionality.
- Optimized UI components for responsive design across devices.
- Validated API responses to ensure data accuracy and handled error scenarios for reliability.
- Debugged and resolved UI inconsistencies, enhancing application stability.
